OBJECTIVE

2+ years of experience as a React developer, adept at identifying web-based user interactions and designing responsive user interface components. Proficient in developing React concepts, translating designs and wireframes into high-quality code using JavaScript and ReactJS workflows. Skilled in creating efficient and user-friendly web applications.

EDUCATION

Master of Computer Application
Rajiv Gandhi Prodyogiki Viswavidyalaya University 2018- 2020
Bhopal

Bachelor of Computer Application
Makhanlal Chaturvedi National University of Jaurnalism 2015- 2018
Bhopal

SKILLS

HTML, CSS, Bootstrap, Tailwind-CSS , MUI
JavaScript, Typescript, Basic NodeJS
ReactJS, Git, GitHub, BitBucket, sonarqube

EXPERIENCE

Software developer Jan 2025 - current
24-7 Intouch India Private Limited Hyderabad *Hyderabad , Telangana*

- Developed and maintained user interface components using **React.js** and **nodejs** .
- Collaborated with cross-functional teams to design and implement new features.
- Debug the code and test the code quality using **sonarqube**.
- **Integrated APIs** and **third-party** libraries to enhance application capabilities Troubleshooting and resolving bugs and performance issues.

Junior Software developer (ReactJS Developer) July 2022 - Jan 2025
Restory healthytech private limited *Hyderabad , Telangana*

- Developed and maintained user interface components using **React.js** .
- Collaborated with cross-functional teams to design and implement new features.
- Implemented responsive web design principles to optimize the user experience across different devices.
- **Integrated APIs and third-party libraries** to enhance application capabilities Troubleshooted and resolved bugs and performance issues.

PROJECTS

Catapult

Developed a call quality checking software ("Catapult") using ReactJS for the front end and Node.js for the backend, which helped monitor and analyze call quality in real-time for improved communication services.

Built interactive, dynamic user interfaces with ReactJS that enabled users to visualize and analyze data related to call performance, network latency, and overall call quality..

Developed data visualization components using ReactJS to display key call performance indicators (KPIs), providing actionable insights for users to monitor and troubleshoot network issues.

Conducted thorough code reviews and actively participated in regular team meetings to enhance code quality and ensure adherence to best practices.

Collaborated closely with the Quality Assurance team to identify and resolve software defects, delivering high-quality and reliable software solutions.

Myhealthscore.in

Developed and maintained a medical records management system for myhealthscore.in using React.js and context, streamlining patient data management processes and significantly improving operational efficiency and data accuracy.

Integrated third-party APIs to retrieve and display real-time patient data and health scores from external systems, ensuring seamless interoperability and enhancing data accuracy across the platform.

Conducted thorough code reviews and actively participated in regular team meetings, collaborating with cross-functional teams to improve code quality, performance, and ensure adherence to software development best practices.

Collaborated with the Quality Assurance (QA) team to identify and resolve software defects, delivering high-quality, reliable software solutions that met functional and non-functional requirements for healthcare professionals.

TRAINING AND CERTIFICATION

- Earned Cutshort Certified HTML/CSS - Basic certification, demonstrating foundational skills in web development.
- Completed all assignments in HTML, CSS, and JavaScript on freeCodeCamp, strengthening problem-solving abilities and front-end development skills.
- Successfully completed the ReactJS Masterclass by Naresh IT Software Training Institute, gaining in-depth knowledge of ReactJS for building dynamic web applications.
